

# little lambs and ivy's baby registry

## Our Favorite Brands

The experts at Little Lambs and Ivy scour the market each season to find new products that offer exceptional quality, style and real world practicality. We look for items that are both gorgeous and indispensable. Anything that makes a mom's day easier piques our interest. Over the years, we've collected a list of our favorite brands and we want to share our "superstars" with you!

**(1) Swaddle Designs Blankets** — Babies love to be swaddled! These blankets are perfect because they are big enough to create the perfect swaddle and are square in shape. They come in the softest flannel, are available in lovely colors and designs, and last through multiple washings. Most importantly, a cheat sheet on how to swaddle is sewn into the actual blanket. That way Daddy won't have to ask for help!

**(2) Creations by JJ Gowns** — Handmade with love by our friends back in Tennessee, these super soft 100% cotton gowns have a lap shoulder neck for easy "over-the-head" fitting and a drawstring bottom for easy diaper changes in the middle of the night. Coordinating blankets, burp cloths, and hats make a complete "coming home" outfit.

**(3) Kissy Kissy Printed and Striped Convertibags** — Kissy Kissy brand clothing makes outfitting a classic and sweet layette for your baby easy. They use only the softest Pima cotton, the cutest prints and the most adorable basics.

**(4) Little Giraffe "Lovie" Blankets** — Little Giraffe makes the most luxurious chenille "lovies" to help little ones feel comforted when you're not there. They're more than a transitional object though, they are an essential part of their security and successful sleep! Once they touch them, they won't want to let go.
